

Front Steps

Details from Island Painting & Waterproofing, Inc.

The Process involves:

1. Cleaning and degreasing floor surface with pressure wash 3,500 psi.
2. Let surface dry.
3. Apply textured (base/primer) CONFLEX concrete water proofer coating. 1 or 2 gallons.
4. Let 1st coat dry.
5. Apply Armoseal TredPlex Floor coat. 1 gallon.

Note: Use proper protection, tools and equipment. Rinse Clean and properly dispose leftovers.

CONFLEX Flexible Concrete Waterproofer Textured

★★★★★

Not Yet Rated | [Write a Review](#)

ConfFlex Flexible Concrete Waterproofer provides a slip-resistant, breathable finish designed to protect concrete surfaces from water intrusion. Available in both smooth and textured finishes. It is a waterbased coating that offers versatility for residential areas and usage. It can be used as a stand-alone product or overcoated for maximum protection in high traffic areas. It is easily applied and comes in a variety of colors.
